

ANTON TODOROV MARINOV

PROFESSIONAL SUMMARY

As a meticulous and forward-thinking Front-End Developer boasting over a year of hands-on experience, my expertise lies in the creation of responsive web applications that prioritize optimal user engagement. Proficient in HTML, CSS, JavaScript and React, I possess a robust skill set that enables me to seamlessly translate intricate designs into fully functional website components.

My journey into front-end development commenced through self-directed learning and targeted courses, underscoring my commitment to achieving mastery and fostering innovation within the field. I excel in leveraging contemporary web technologies to elevate user experiences, underpinned by a discerning grasp of UI design principles.

Specialising in React, I am adept at crafting captivating web and mobile applications that align with the latest UX standards. My passion for harnessing web technology to enhance user interactions fuels my dedication to making substantial contributions to the success of a progressive development team.
